VOTER ALERT - VOTER ALERT - VOTER ALERT - VOTER ALERT

**Say NO to negative
dirty-trick campaigns.
Vote NO on I-841.**

The business lobbying groups financing Initiative 841 have launched a \$1 million TV and radio advertising campaign. They are trying to scare Washington voters into repealing an important work safety rule that is preventing disabling injuries.

I-841's high-priced California political consultants have recommended playing upon people's biggest fears — loss of their jobs and loss of health care benefits.

No jobs will be lost!

Employers only have to fix worksite hazards to the degree economically feasible. No employer will be forced to lay off workers to pay for safety improvements. *I-841 sponsors know this, but they are trying to scare us with job-loss threats.*

No work hours will be cut!

The state ergonomic safety rule DOES NOT limit work hours or restrict any type of work activity. Period. It's in writing from the state. Yet, I-841 ads say employers will be forced to cut work shifts to 4 hours. *That's a lie and they know it.*

No kids will lose health care!

The cynical I-841 ads suggesting children will lose health care are just absurd. Work safety rules have nothing to do with health insurance. The state would never, under any circumstance, force employers to cut health benefits for workers or their children. *This is a disturbing example of how cynical I-841 truly is.*

Keep Workers Healthy
