

SAFEWAY Wants to Kill Affordable Family Health Care

Safeway and its CEO Steve Burd have forced tens of thousands of Southern California working families into the streets in a fight to save affordable health care at work.

Safeway intends to take its demands to eliminate affordable health benefits into every market where it does business, spreading the misery to our community.

Safeway doesn't have to cut benefits. Profits have gone up 82% to \$3.1 billion over the past five years. It's all about corporate greed.

Don't Shop Safeway

Support The Labor Movement — Help Safeway Workers Hold The Line
