

Don't Brush Away Our Rights... at Washington Dental Service

Leslie Hanson and Joan Neuhaus

Union standards and benefits **are under attack at WDS.** A new management team at this non-profit insurance company wants to **"modernize" the contract in order to gain a "competitive" edge.** Our health care, retirement benefits and job security are all at risk.

WDS was founded by labor unions 50 years ago, and at least 75% of WDS business comes from union members.

Please help us show WDS management that the labor community supports our efforts to stand up for a fair contract.
