

**Union members:
Help take our
state back**

Volunteer!

The needs and concerns of working families in Bellevue, Mercer Island and surrounding communities in King County are being ignored in Olympia. Instead, Washington D.C.-style partisan politics and gridlock are killing efforts to create good jobs, raise wages, and improve our quality of life. **This year, we can do something about it.**

In our 41st Legislative District, challenger Lisa Wellman has a great chance to replace a state senator who is part of the problem in Olympia. Wellman could join Reps. Tana Senn and Judy Clibborn to make a great team for working families. **But we need your help** to make sure that union members and their families know about them – and VOTE. Join us!
