

Accounting

By CARLOS DE LA TORRE, *Accounting Manager*

It has been a pleasure to serve as Accounting Manager, reporting to WSLC Secretary Treasurer April Sims and President Larry Brown. In this role I oversee our financial system, prepare grant billings, submit budgets and financial statements for presentation, and manage compliance issues along with participation in our annual independent audits. I work closely with Robert New, who provides invaluable accounting assistance and experience as our accounts payable and receivables specialist.

Much of the satisfaction derived from this position is supporting, although indirectly, the activities of the Washington State Labor Council in its efforts to support our affiliates and social justice, in general. I look forward to continuing my participation in the accounting department, and continuing to work with the rest of the wonderful WSLC staff, as we endeavor to help working people overall.

The WSLC Financial Statements and Per Capita Reports, along with the Labor 1992 Financial Statements, which are usually included alongside officer and staff reports in the Partial Proceedings, are not being posted electronically for the 2020 WSLC Constitutional Convention. Credentialed delegates can request a printed copy of those reports by contacting David Groves at dgroves@wslc.org.
